

VPN Connection for iPhone/ iPad users “Off Campus Access”

1- Go to Setting → General → VPN.

2- Click on “[Add VPN Configuration](#)”.

In the Type field	Choose L2TP
Description	HSC (Optional)
Server	HSC-VPN.HSC.EDU.KW
Account	HSC account (example: Dima@hscm.ku.edu.kw)
Password	HSC account password
Secret	HSC-VPN “case-sensitive, please enter it exactly as it appears here”

then click [Done](#).

3- Choose HSC “the newly created VPN” and click [Connect](#).

The screenshot shows the 'Add Configuration' screen on an iPhone. The title is 'Add Configuration' with 'Cancel' and 'Done' buttons. The fields are as follows:

- Type: L2TP >
- Description: HSC
- Server: hsc-vpn.hsc.edu.kw
- Account: Dima
- RSA SecurID: (toggle off)
- Password: HSC account password
- Secret: HSC-VPN
- Send All Traffic: (toggle on)

At the bottom, there is a 'PROXY' section with three buttons: 'Off', 'Manual', and 'Auto'.

VPN: “Virtual Private Network”
